

WHAT'S YOUR HEALTH CHALLENGE?

YEAST OVERGROWTH

YEAST OVERGROWTH CAN BE A SERIOUS CONCERN

Yeast is an organism that lives in the body and usually causes no harm, but when the bodies' internal eco-system becomes unbalanced, yeast can cause illness and discomfort. The National Institute of Allergy and Infectious Disease shows that 75% of all women have had at least one vaginal yeast infection in their lifetime. More than half of these women will experience recurrent yeast infections.

SOME COMMON CAUSES OF YEAST OVERGROWTH:

A diet full of refined carbohydrates and sugar (which feed the yeast)

- > Ingesting a lot of alcoholic beverages
- > The use of oral contraceptives
- > High-stress lifestyles
- > Recent antibiotic usage

HERE ARE THE RESULTS OF YOU EXPERIENCING YEAST OVERGROWTH

- *Digestive issues such as bloating, constipation, or diarrhea*
- *Skin and nail fungal infections (such as athlete's foot or toenail fungus)*
- *Feeling tired and worn down*
- *Irritability, mood swings*
- *Vaginal infections, urinary tract infections*
- *Vaginal itching or rectal itching*
- *Sugar and refined carbohydrate cravings*

HOMEOPATHY AND PROBIOTICS ARE A SAFE & NATURAL APPROACH TO REDUCING YEAST OVERGROWTH
